## DRUG QUALITY SERVICES

- Uniformity of Dosage Unit (UDU) - including weight variation & content uniformity.
- Dissolution testing
- Loss on drying (LOD) determination
- HPLC Analysis
- Spectrophotometric analysis
- pH measurement

## OTHER LABORATORY SERVICES

Drug Stability /Shelf-life study

Drug formulation studies

Drug Disintegration, Friability and Hardness

DSC analysis

Toxicity or safety study

Efficacy study (immunomodulatory, anti-inflammation, antimalaria, antimicrobial including TB, diabetes, sickle cell disease, antiulcer, reproductive/fertility, etc)

- Elemental analysis
- Water analysis
- Food analysis
- Microbial Load/count – including biochemical characterization
- CNS/Behavioural studies
- Herbal product analysis

## **CLINICAL SERVICE**

Clinical Trials

Clinical laboratory diagnostic services

## **TRAINING**

QMS / QA & QC for Laboratories and production facilities

Equipment use including procedures, precautions, prequalification, etc.

SOP development

Methods development/validation

Technical concepts /research procedures

# TERMS & CONDITIONS

Samples may be delivered via courier service at no extra cost to the client after **100% payment for analysis**

**Discount of 1-10%** can be negotiated for any single analysis worth up to and above **N500,000.00**.

100% payment receiving samples  
Duration of analysis is 2-4 weeks from date of sample receipt.
